

## Senior Citizens Day Celebration

Date: 21/08/2023

Day: Monday

Venue: AHPS, Hall

August 21 is Senior Citizens Day! It's a time to raise awareness about the elderly and celebrate all of the amazing things that our aging population contributes to our communities. This year, Senior Citizens Day is especially important in light of the pandemic. COVID-19 brought many challenges to older adults, who are at a greater risk of complications from the virus. Our elderly community members faced isolation from family members, friends, and neighbors. Like all of us, they missed out on many moments due to the coronavirus. This year, now more than ever, we can take a moment to celebrate seniors and recognize their accomplishments and bravery throughout their lives. Celebrated senior citizens Day by encouraged the elders to share their tales of experience with them and played many interesting games to cheer them up. All enjoyed music and movement. Students also pledged that they will value and respect their parents when they will grow old. They acknowledged the contribution and achievements of senior to the society and held a cake-cutting ceremony to mark the occasion. The students also took this opportunity to make the elders aware of their rights and privileges as esteemed members of our society. the students encouraged them to make such deeds a regular part of their life. This aimed at providing platform to Academic Heights Public School students, teachers, and non-teaching staff to come together and do their bit in lending helping hand to serve the humanity.
